MERCURY: THE SMALLEST & FASTEST PLANET

I'm the smallest and zoom around the Sun in just 88 days!

NO AIR HERE!

My surface is full of holes called craters, and there's no air to breathe!

SUPER HOT & COLD

Day is

Night is

CLOSEST TO THE SUN

VENUS

MARS

EARTH

MERCURY: 1st Planet

I'[illegible]ery first planet [illegible]
